1. Is there anything not covered by the proposed indicators? (if yes, please explain)

No. This appears to be a comprehensive set of indicators which will allow us to report on the progress we will be making towards the EESSH2 target.

2. Are there any indicators that you feel are not appropriate and, if so, why?

Not as such. However, there is a need for clarification on exactly what we are being asked for at indicator 3i . It is not clear whether the auto calcs will give us the number of exemptions or just the total or properties in this EESSH category.

3. Is there any information we ask for that you feel does not need to be included or that we have been missed?

No.

4: Would you like to make any other comments or suggestions about our proposed indicators?

No.

Thank you for taking the time to give us your feedback!
